

# CE CREDITS

---

17 credit Hours will be awarded for this course through DDS-Online. DDS-Online is an ADA CERP Recognized Provider (**full information about the ADA CERP program will be found at [www.dental-implants/ada-c-e-r-p.com](http://www.dental-implants/ada-c-e-r-p.com)**). In accordance with the CERP program, you and your staff will receive Certificates of Attendance. The ADA CERP program does not allow for

provider to deliver anything that resembles a diploma. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

Any Complaints concerning this course, the course speaker, the facilities or DDS-Online may be forwarded to S. Robert Davidoff, Director, DDS-Online at 561-212-4391 or [srobert1944@gmail.com](mailto:srobert1944@gmail.com).

## DENTAL IMPLANT MENTORING

---

A Unique Dental Education Experience

## An Exclusive Three-Day Course

- ▶ Your Office
- ▶ Your Staff
- ▶ Your Patients

Everything you and your staff will need to incorporate Dental Implant placement and restoration into your practice. . .

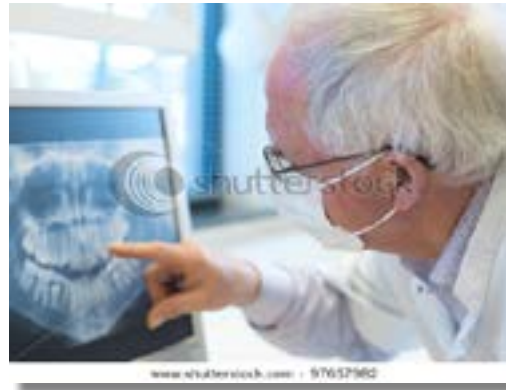

## DENTAL IMPLANT SURGERY

The core of this course is Dental Implant Surgery and the goal is to teach you how to diagnose, treatment plan, surgically place and restore Dental Implants. To do this, we will have lectures, lab demonstrations, lab exercises and you will perform surgical placements on your patients.

Based on our initial conversations, I will make sure that you have the proper equipment available in your dental office to safely perform dental implant surgery. I will train you and your dental nurse to perform the necessary procedures and instruct you on follow-up and the restorative phase. If you would like to purchase your own system, or you already have a system, that will work out just fine. There are lots of surgical systems out there, each with their own advantages and disadvantages.

I will be available for consultation after the course is completed to answer any questions that might come up or to help you solve any problems that might arise. Don't forget that practicing dentistry is a great deal about problem solving.

In appreciation of the service this therapy has to offer both the patient and the dental professional and it's current popularity in the dental community, Dr. Davidoff is offering a unique educational opportunity. Direct chairside step-by-step mentoring sessions that allow for a true hands on experience.

He will visit your office for a three day intensive dental implant course. The experience will allow you to both place and restore two patients of your selection. You will experience this treatment modality first hand and gain proficiency in your own office, with your own staff and in a familiar environment . After an introductory didactic section and a hands on workshop with surgical models, live surgery and restoration will be your best teacher!

## DR. DAVIDOFF

Dr. Davidoff is a graduate of Tufts University School of Dental Medicine. He is a Board Certified Prosthodontist. Dr. Davidoff perfected his techniques with over 15,000 implants and restorative situations involving hundreds and hundreds of patients. He published many articles in the dental literature and lectured around the Globe. Today, he teaches what he learned over all those years with skill and dedication.

Dr. Davidoff's full CV can be found on his dental Implant site, [www.dental-implants/c-v.com](http://www.dental-implants/c-v.com) along with other information about dental implants and Dr. Davidoff's Dental Implant Mentoring program.
